- 1. The SED has been informed by the Soviets that they will agree to nothing in Moscow; that the Western Powers must eventually capitulate.
- 2. The talks are being prolonged only to allow the Soviets to take all necessary measures to control the whole of Berlin.
- 3. The Soviets believe that by prolonging the Moscow talks they will weaken the resistance of the Berlin population and undermine the authority of the Western Powers. It will then be possible to create disturbances in the western sectors.
